Technology Serves Human Health

Features

Flexible and Comfortable

The lightweight upgrade of the forehead support bracket simplifies the design, provides a wider range of adjustment, making wearing more flexible and comfortable, ensuring accurate fitting.

Safety and Quiet

The newly optimized double-sided exhaust hole design can significantly reduce the impact of airflow and effectively reduce the noise to below 28 decibels, could enjoy high-quality sleep.

Soft Fit

Equipped with air-rebound silicone pads, it reduces pressure on the skin and wraps gently. It remains soft and traceless even after long-term wear and is suitable for all face shapes.

Skin-Friendly and Breathable

The headgear uses highly breathable and skin-friendly materials to reduce heat and friction, improve user experience.

Easy Assembly

It is fully upgraded to a quick-release buckle to simplify the assembly process, making it easier to wear. Combined with lightweight materials, it improves user comfort and convenience.
