Technology Serves Human Health

Features

Intelligent Adjustment

Independent invention patent of forehead stepless knob design can adjust the angle more flexibly and easily according to the different face shapes of users. It can achieve a precise fit by simple operation.

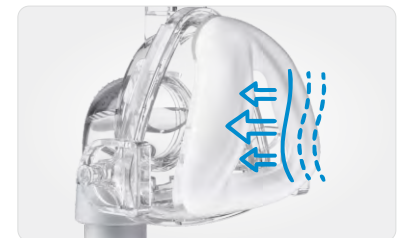

Safety and Quiet

Anti-clogging micro exhaust hole design makes it safer for users to wear. Scientifically distributed exhaust design greatly reduces the airflow noise to below 35 decibels, allowing you to enjoy high-quality sleep moments.

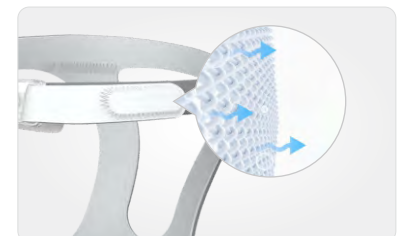

Soft Fit

A double-layer air rebound silicone pad could reduce the pressure on the skin, gently wrap and make it soft and traceless after long-term wearing, suitable for a variety of face shapes.

Skin-Friendly and Breathable

The headgear uses highly breathable and skin-friendly materials to reduce heat and friction, improving user experience.

Light and Convenient

Lightweight design is more suitable for snorers, as it does not affect the user's speaking, eating, etc. The rotating quick-release connector supports 3-second disassembly, say goodbye to tedious operation, whether it is for daily use or cleaning and maintenance, it is easier.
